ing towns and important railroad centres of Massachusetta is Worcester, forming the unotion of six distinct lines of rail, and having varied and extensive factories. With a populaton of about 50,000, over \$7,000,-000 worth of various articles are annually manufactured. It is a handsome city, built chiefly of brick, with many elegant public buildings and a score of handsome churches. Among the leading manufacturing bouses may be taken as a fair sample of the extensive works carried on that of Lucius W. Pond, the celebrated maker of machinists' Reply to England's Case ! tools. It is here that are produced the instruments and appliances used throughout the United States by almost every class of engineer, machine maker, railroad rolling stock provider, boiler maker, builder, black. The Mayor Hall Trial smith, earpenter and other handicraftsman. The works are so varied, extensive and attractive, that days might be spent in examning the production of so vast an assort- The "Japs" at Chicago ment of machines for facilitating the operations of manual labor. Big engine lathes from 5 to 35 feet long, some having 10 feet swing, capable of producing the largest Fearful Double Murder. ly graded as to give exquisite finish either to the finest cabinet work or the most ponderous column. Planers capable of smoothing iron or wood of any magnitude. Upright and suspension drills, with which socketss, rivet holes, and all other necessary aportures can be made in any material with unerring accuracy. The sole right to manufacture Taft's celebrated Patent Rolling Lever Punching and Shearing Machines General Summary. is vested in this house, and the entire mochanical world has for seven years borne undeviating testimony to the superior excellence of these aids to mechanism for the production of perfect river holes and clean edges for bolting or joining. The tools made by Lucius W. Pond have a continenal reputation, and there are few places in the civilized world where engineering or mechanical works of any magnitude are carried on but the assistance of some of Pond's machines are not brought into remachinery, the skilled labor, and the scientific supervision required to carry out lion dollars. excellence in every article produced which pied by the drawing of jurors. is requisite for the satisfactory production of Hall's case to-day, and the court adthe various important manufactures for journed. which they are used, and which proves so valuable to the practical workman.
